

MULTI-SPORT

PROVIDE AN EXCEPTIONAL VENUE FOR A VARIETY OF RECREATIONAL ACTIVITIES

The product of industry experience and technological developments, Arizon's air-supported structures serve as the ideal solution for multi-sports applications. Arizon air structures provide unlimited and uninterrupted clear-span space to accommodate a variety of recreational activities under one dome, including: track, soccer, football, baseball, softball, tennis, swimming, etc. Athletes and their fans can watch the action in a safe, covered, climate-controlled environment, regardless of what the weather forecast predicts. Facility owners see the benefits too, enjoying a lower initial investment, lower operating costs, total structural stability and a long structure lifespan. Arizon provides the complete turnkey facilities, optional financing and insurance, allowing tennis club owners to develop the exact system required for their particular needs with minimal involvement or interruption to their ongoing business.

OUTSTANDING FEATURES AND BENEFITS

Code Friendly

Exceeds standard building codes such as AISC, BOCA, ICBO, IBC, CSA and NFPA 701.

Resists the Elements

With the unique Arizon Grid System, the structure can withstand winds up to 150 mph and snow loads up to 50 lbs. per square foot. Fabric is also fire retardant, mildew and fungus proof and UV resistant.

Flexibility

Provides both long term or short term facilities, based on the needs of the club. The structure can also easily be removed and transported to a new location.

Comfort

Provides the ideal temperature conditions for your guests, regardless of what the weather is like outside with the ability to change inside air up to six times per hour.

Safety

Safety acceptance by conventional insurance companies.

Discounted Insurance Rates

Discounted Insurance rates due to the Arizon Grid exceeding minimum design standards and equaling or exceeding conventional construction standards for wind and snow load.

Costs

Costs one-third less than traditional building construction.

Low Cost, High Value

Tennis clubs, country clubs, schools and municipalities are able to provide premier indoor facilities for students and/or communities at a fraction of the cost, and private entrepreneurs are able to develop large, indoor sports centers for any application with guaranteed success due to the low initial investment, favorable tax classification, short-term depreciation, guaranteed performance and long projected life.
